Map Animations

Special Effects

Materials

Lights

Camera

Walk-through

Fly-over

# ANIMATION

Who should attend?

1. Draughtsmen
2. Engineering Designers
3. Architects
4. Animators

# ANIMATION

## Contents

You will learn how to navigate your way around 3D Studio, how make scenes with 3D objects by applying materials, setting camera, lights and background.

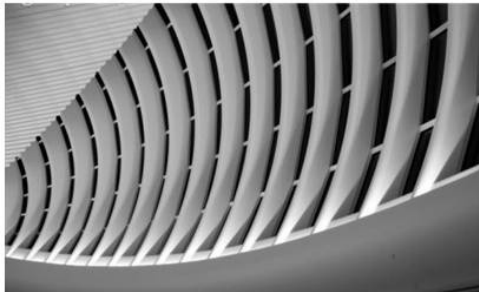

You will develop a comprehensive 3D animation project with object transformations to present the concept of design as a working model.

You will also create walk-through and fly-over around projects and to make 3D animation movie files

# ANIMATION

## Workshop

Option 1: Full Day

- 3 Days

- 8 Hours/Day

Option 2: Evening Batch

- 8 Days

- 3 Hours/Day

# ANIMATION

## Course Director

**Dr.Nazer**

- Chief Technical Officer, PMS
- 15 years of experience
- Directed hundreds of animation/simulation projects across the globe
- International papers
- Winner of a number of awards in  
Project Planning, Monitoring & Control
