

# Dr.Nazer's Workshop on **AutoCAD**

## **AutoCAD**

### Engineering Drafting and Designing

Participants will learn how to use this powerful software application to make drawings in 2D and modelling in 3D.

# AutoCAD

# AutoCAD

## Who should attend?

1. Draughtsmen
2. Engineering Designers
3. Architects
4. Engineers
5. Animators
6. Senior Engineers/Managers to review drawing on AutoCAD

# AutoCAD

## Contents

You will learn how to navigate your way around this powerful software application, how to create and maintain drawings and designs, modify and edit drawing elements.

You will develop a comprehensive project drawing from scratch including design, calculations and ability to manage large drawings with external references.

You will also create 3D models, render with materials, lights and camera to generate and take hard copy of photo realistic views of your designs.

# AutoCAD

## Workshop

**Option 1: Full Day**  
- 3 Days  
- 8 Hours/Day

**Option 2: Evening Batch**  
- 8 Days  
- 3 Hours/Day

**Note:** Different workshops for 2D and 3D
