

Dr.Nazer's Workshop on  
**PRIMAVERA**

**PRIMAVERA**

Project Planning & Control

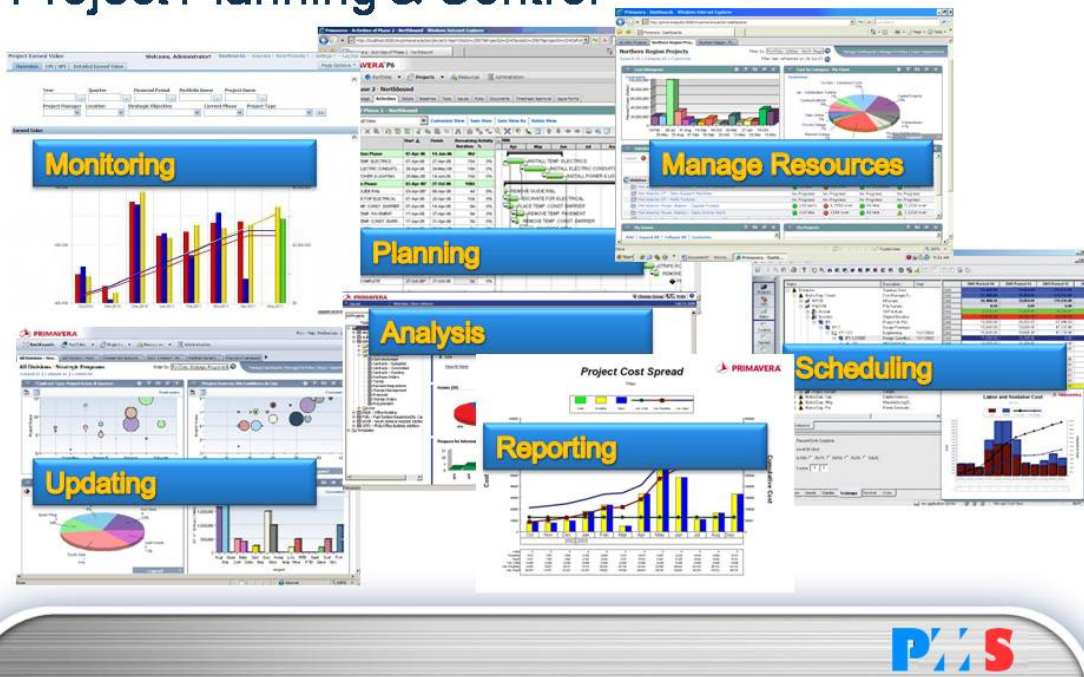

Participants will learn how to use this powerful software application to plan, monitor and control projects.

# PRIMAVERA

## Project Planning & Control

# PRIMAVERA

## Who should attend?

1. Program Managers and Project Control staff evaluating the software against organisational requirements
2. Project schedulers who need to learn how to use the software to schedule and control projects
3. Experienced project personnel who wish to learn how to schedule and control a project
4. Fresh graduate engineers who wish to work as a planning engineer

# PRIMAVERA

## Contents

You will learn how to navigate your way around this powerful software application, how to create and maintain layouts, filters and reports, and how to effectively group and sort data.

You will develop a comprehensive project schedule from scratch including developing work breakdown structures, adding activities and duration estimates, creating dependencies between activities and analysing project dates and durations.

You will also create resources and roles, assign them to activities, analyse resource usage and project costs.

# PRIMAVERA

## Workshop

**Option 1: Full Day**

- 3 Days

- 8 Hours/Day

**Option 2: Evening Batch**

- 8 Days

- 3 Hours/Day

# PRIMAVERA
